

## Course summary

VOE Code: LVO.INT.SURV.X.23

ECTS credits: 5

Level: Bachelor's degree (full-time)

|   |  |                        |                                  |
|---|--|------------------------|----------------------------------|
| <b>Course Title</b>   | Surviving the classroom  |                        |                                  |
| <b>Type</b>   | Compulsory   |                        |                                  |
| <b>Learning competences</b>   | Pedagogical competent  |                        |                                  |
| <b>Learning outcomes</b>  | The student can analyze and evaluate educational situations from different international perspectives by means of pedagogical theories. The student can select appropriate interventions based on pedagogical knowledge in order to create and maintain a safe learning environment.   |                        |                                  |
| <b>Course content</b>   | The student is introduced to various pedagogical theories. By group discussions and activities with fellow students on these theories and and student's experiences with theories studied at their home universities, the student develops different perspectives on how to act appropriately in a pedagogical (educational) situation.  |                        |                                  |
| <b>Planned learning activities and teaching methods</b>                     | Active participating during the lessons: <ul style="list-style-type: none"> <li>• Groups discussions</li> <li>• Individual work</li> </ul>   |                        |                                  |
| <b>Recommended or required reading and other learning resources / tools</b> | Brightspace and Microsoft Teams  |                        |                                  |
| <b>Prerequisites and co-requisites</b>                                      | <ul style="list-style-type: none"> <li>• Student studies to become a teacher/ experiences in the field of teaching.</li> <li>• Subject requirement: There is no specific subject requirement for entering this module.</li> <li>• Required knowledge of English: Student is able to understand the instructions; student is able to take part in group discussions.</li> </ul> |                        |                                  |
| <b>Level</b>  | Bachelor   |                        |                                  |
| <b>Grading scale</b>  | 1 up to 10, 1 dec.   |                        |                                  |
| <b>Assessment methods and criteria</b>                                      | <b>Type of assessment</b>  | <b>Grade weighting</b> | <b>Criteria</b>                  |
|   | Written exam   | 100%                   | Word assessment: failed / passed |
|   |  |                        |                                  |
|   |  |                        |                                  |
| <b>Language of Instruction</b>  | English  |                        |                                  |
| <b>Name of lecturer</b>   | For information about the lecturers you can contact Marloes Polman-Groothengel, n.groothengel@windesheim.nl  |                        |                                  |
| <b>Mode of delivery</b>   | Face to face   |                        |                                  |
|   |  |                        |                                  |
