Course content	Windesheim Honours College (WHC) prepares students for an international career as a project manager for a sustainable world. The MPSD is one of the key learning experiences in this preparation. The MPSD group internship (minor for external students) can be described as an opportunity to integrate career related experience into undergraduate education by participating in planned and supervised work. The MPSD programme provides thus more than mere work experience – it is part of your educational programme and involves supervision to ensure the educational character of the experience. This MPSD internship/minor will give you the opportunity to apply what you have learned so far in your educational programme and to learn new approaches in project management and leadership and to critically reflect on your own leadership style. The MPSD course is set up in a project-based context. You will work as a project team leader and member of a (multidisciplinary) student project team and carry out a project for a client. This enables you to give each other feedback, to ask advice and to support each other in the different roles, as a project member and as a project leader.		
Planned learning activities and teaching methods	Coaching on the job, peer interaction and feedback		
Recommended or required reading and other learning resources / tools
